

# Goldilocks Beginning Sounds Game

**Setting:** Small Group

**Objective:** Isolate and identify initial sounds (b, p, w, m, g, s, c)

**Materials Needed:**

- 7 Clothespins per child in your small group (the spring loaded type)
- Fine tip permanent marker
- Goldilocks beginning sound picture wheel (p. 11)
- Optional: recording sheet (p. 12)

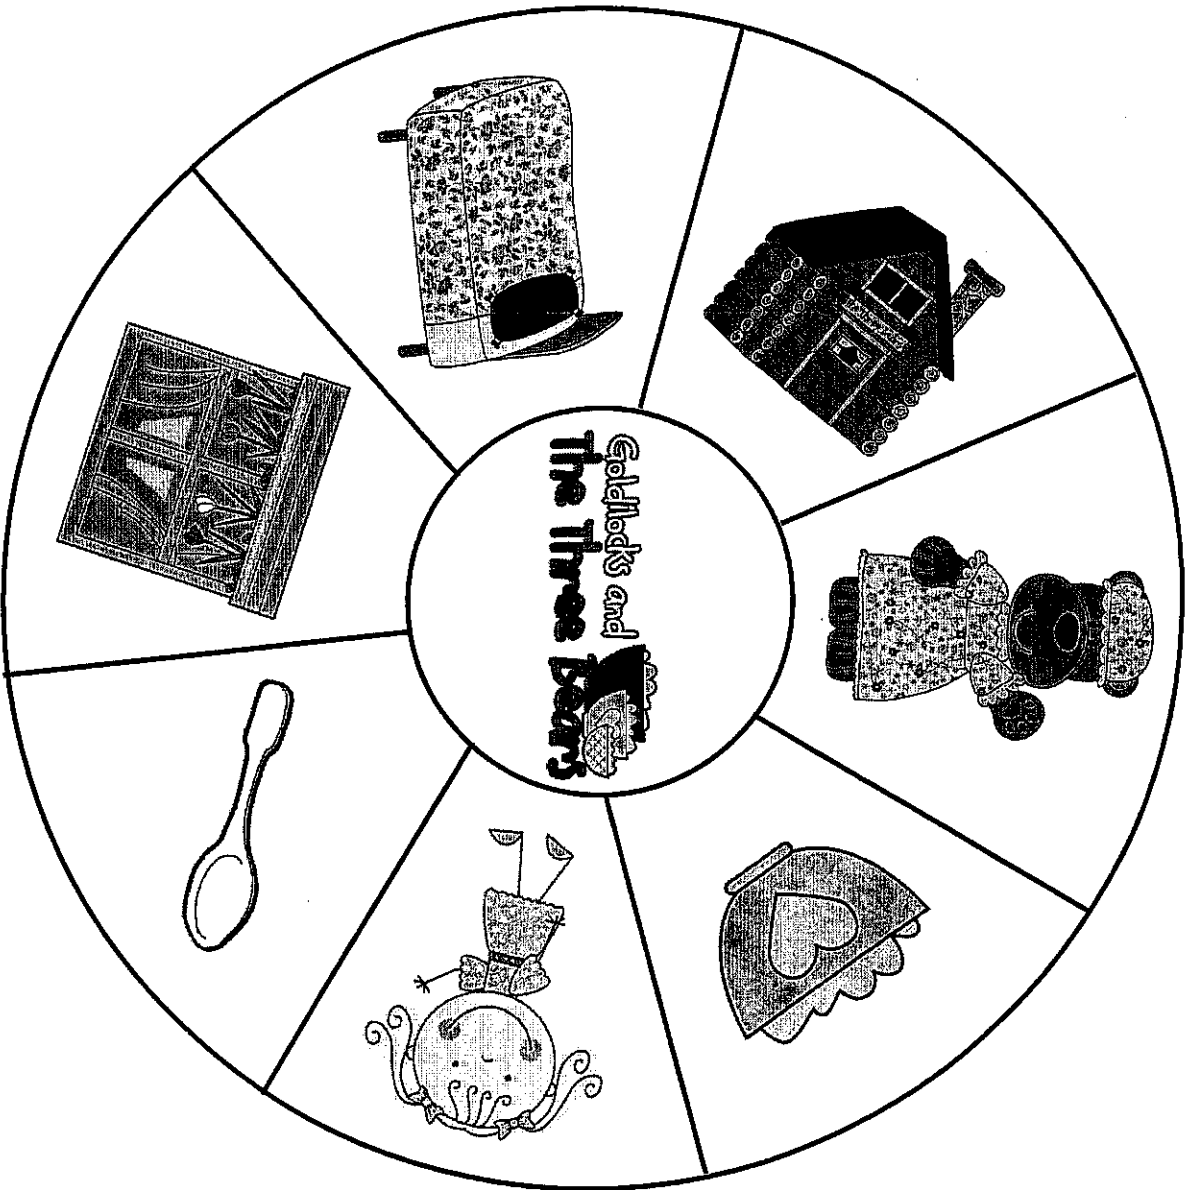

**Directions:**

Use the fine tip permanent marker to write one letter on each clothespin, the letters should correspond with the beginning sounds of the pictures on the wheel. There are 7 pictures on the beginning sound wheel so each student will get 7 clothespins, each one with a different letter written on it. Print one Goldilocks beginning sound wheel for each child in your small group and laminate for durability. Students will identify the picture, identify the beginning sound, and attach the clothespin with the corresponding letter on the wheel. There is an optional recording sheet included on page 12 for advanced students. Students can write the beginning letter in the box next to each picture.

**Tip:** Color the back of each set of clothespins with a different colored permanent marker. For example, student A would have a set of 7 green clothespins; student B would have a set of 7 red clothespins, etc. This will keep the clothespins from becoming mixed up.
